Really... that's it?

Comment by Linty McHare:

Indentation off by one space.

Alright, quick fix. Done!

...Seriously? Why not mention that earlier?

Linty McHare commented:

Variable name ‘count’ doesn’t spark joy.

Linty McHare commented:

Looks good, but will it scale?

Scale?! It’s a calculator app! Was this comment saved for later?

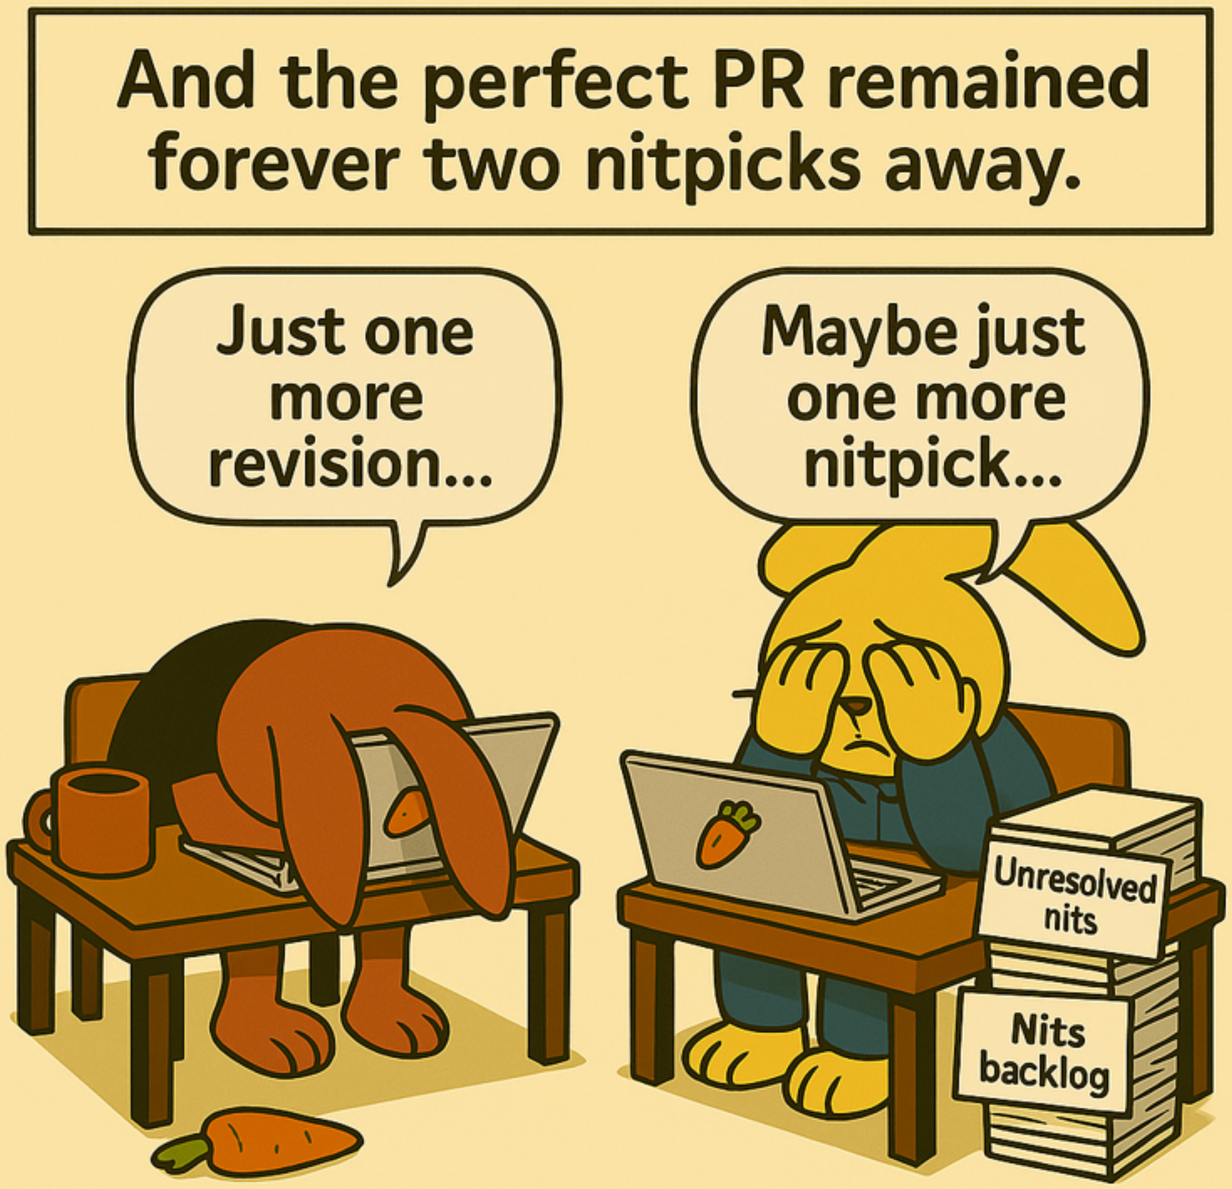

Linty McHare commented:

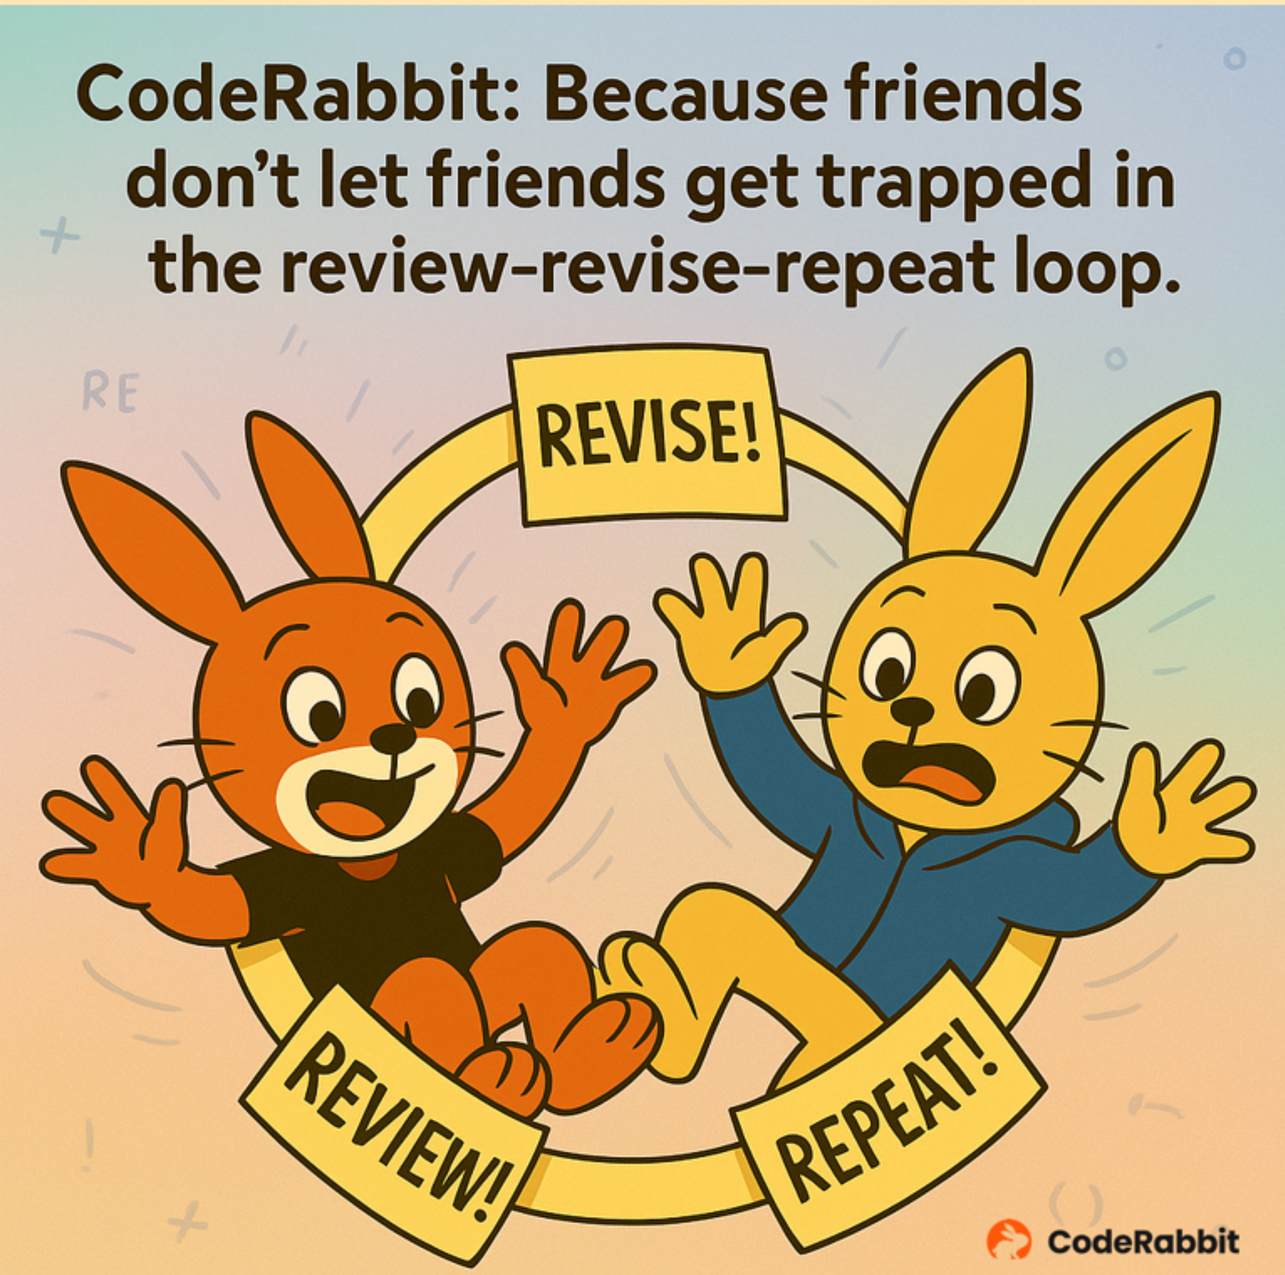

Rewrite this function in assembly. Efficiency! 😉

Assembly?! Is this even real life? Did Linty wait 16 commits for THIS?!
